

The following amendment has been made to the 'Further investment by RBSHL and others in Voneus' announcement released on 11 June 2024 at 7am under RNS No 8384R.

The historic valuation of approximately £6.4 million or 1.8p per GCON share in our audited accounts for the year ended 31 December 2023 reflects neither RBSHL's increased percentage ownership of Voneus since the 25% starting point, nor the growing maturity and success of the underlying business.

The full amended text is shown below.

12 June 2024

Global Connectivity plc
(“GCON” or the “Company”)

CORRECTION: Further investment by RBSHL and others in Voneus

Global Connectivity plc (AQSE: GCON), a company focused on communication services and technologies that enhance connectivity and a shareholder in leading UK broadband provider Voneus Limited (“Voneus”) through its investment in Rural Broadband Solutions Holdings Limited (“RBSHL”), is pleased to announce that on 6 June, a further combined capital investment of £18 million was made into Voneus by its shareholders and lenders. As reported on 15 May 2024 in the Company's Annual Financial Audited results to 31 December 2023, RBSHL's stake in Voneus increased to 38% following April's capital injection.

This latest investment in Voneus increases RBSHL's stake to 41% from 38%. Global Connectivity plc owns a 15% stake in RBSHL's common equity.

The most conservative method of valuation, particularly in the early period of a merged entity, is to use the cost of investment as the principal determinant. This is what we have adopted, which mirrors the practice of Tiger Infrastructure, GCON's partner in and majority shareholder of RBSHL. To date Tiger has invested £72 million in RBSHL.

The vast majority of Tiger's investment has been made since the merger of Macquarie's and RBSHL's interests into Voneus was announced in September 2023. Moreover, by prior agreement, the extent of this subsequent investment has far exceeded that made by Macquarie. As a result, RBSHL's percentage ownership of Voneus has increased from an initial 25% (before Tiger Infrastructure and other shareholders merged SWS Broadband and Cadence Networks with Voneus Broadband, and simultaneously acquired Broadway Partners in September 2023) to approximately 41% with a consequent increase in GCON's indirect ownership of Voneus.

Moreover, Voneus now operates on a fully integrated basis with a resultant increase in the rate of growth of homes passed, those ready for service and sales to customers. The historic valuation of approximately £6.4 million or 1.8p per GCON share in our audited accounts for the year ended 31 December 2023 reflects our holding of RBSHL, but does not reflect RBSHL's increased percentage ownership of Voneus since the 25%

starting point, nor the growing maturity and success of the underlying business of Voneus.
